

Bio-Zone

Staphylococcus Aureus

Bio-Zone

Why should I use Bio-Zone?

- ♻️ Each of us are affected by microbes in some way on a daily basis. Every object we touch can have substantial microbe infestation.
- ♻️ You can now limit the amount of microbial contamination that you breathe and touch.
- ♻️ **Bio-Zone** is non-poisonous, non-heavy metal based and proven to protect against microbial growth.

Bio-Zone

What benefits can be expected from surfaces that are treated with **Bio-Zone**?

- ⌘ **Bio-Zone** protection continuously fights the growth of microbes that can cause stains, odors and surface or product degradation.
- ⌘ **Bio-Zone** protection makes the surfaces in your business easier to clean and keeps them cleaner and fresher between cleanings.

Bio-Zone

Once **Bio-Zone** is applied do I have to clean as often or as carefully?

- ⌘ **Bio-Zone** helps make surfaces easier to clean and helps keep them clean!
- ⌘ However, we cannot stress enough that “***standard cleaning practices should always be maintained.***”

Bio-Zone

How long does **Bio-Zone** protection work?

- ⌘ **Bio-Zone** is engineered to provide continuous antimicrobial product protection for ninety (90) days or greater, keeping the surfaces in your home or business cleaner and fresher for longer than ever before.
- ⌘ Once **Bio-Zone** is applied to the surface it will not wash off.

Bio-Zone

Program Summary

- ⌘ 25 Years of safe use
 - ⌘ 8-EPA Registrations
 - ⌘ USDA (accepted for use on food contact surfaces)
 - ⌘ US Patents (5)
- 

Bio-Zone
